

EmbedUR - Linux Training Program

Module - 2

Assignment – 13 (more on sed command)

Try to replace or substitute name Ankit with Ashish

Output:

```
aswinsankesh@aswin-linux:~$ cat > seddemo.txt
hi this is ankit here
What Ankit is doing here?
I was about to call Ashish here.
Ok we shall talk to ankit later.
aswinsankesh@aswin-linux:~$
aswinsankesh@aswin-linux:~$ sed 's/[aA]nkit/Ashish/' seddemo.txt
hi this is Ashish here
What Ashish is doing here?
I was about to call Ashish here.
Ok we shall talk to Ashish later.
aswinsankesh@aswin-linux:~$
```

Explanation:

sed => script editor. Used to edit, replace or print files

Flag s => represents substitute
