Assignment – 12 (sed command)

Try to print records from 6th to 12th line.

Output

```
aswinsankesh@aswin-linux:~$ cat > seddemo.txt
this is line 1
this is line 2
this is line 3
this is line 4
this is line 5
this is line 6
this is line 7
this is line 8
this is line 9
this is lin 10
this is line 11
this is line 12
this is line 13
aswinsankesh@aswin-linux:~$ sed -n '6,12p' seddemo.txt
this is line 6
this is line 7
this is line 8
this is line 9
this is lin 10
this is line 11
this is line 12
aswinsankesh@aswin-linux:~$
```

Output:

Sed => Stream Editor. Used to edit in files or streams

-n => silent mode

'6,12p' => expression to print from 6th to 12th line.
