EmbedUR - Linux Training Program

Module - 2

Assignment – 11 (More on Grep command)

1) List those entries that are 5 letters long and starts with Y

Output:

```
aswinsankesh@aswin-linux:~$ cat > grepdemo2.txt
yahoo
yahooo
yyaahoo
yyaho
yahho
yyyaa
aswinsankesh@aswin-linux:~$ grep "y....$" grepdemo2.txt
yahoo
yyaho
yahho
yyyaa
aswinsankesh@aswin-linux:~$
```

Explanation:

grep => to match particular pattern given in string

…. => to find whether 4 characters are present

$ => to monitor the end of the word
